Week 3	<i><b>Presentations</b></i> Lecture 3 (Gaggero/Kavanagh)	Scripts	Q&A (Gaggero/Kavanagh)
Week 4	Presentations	Scripts	Feedback

# Presentations in weeks 2&3

- Purpose: to make progress report of the previous week
- Aim for ~20 min for each group
- Style of presentations are up to you, but it is recommended to use slides (which can be recycle in your final presentation in week 4, of course)

# Tips & suggestions

- Cosmology & Candidate groups uploaded reviews as of 17:00, 7 June
- In general, well written, so I can encourage you to keep working
- Some generic advice
  - Include more figures (and mention their references in the caption)
  - Try to put many more references; we cannot cover the topic completely, but can try to redirect interested readers to
  - Please also make it clear who wrote which section, etc.
  - Reduce typos! Do spell checks; also “where” was often used for places meant for “were” (Dutch specific??)
